

Shiremoor Voice Meeting

6th October 2025

- **Introductions**
- **Overview of targets for the year**

This year, Mrs Middleton has tasked us with becoming a more sustainable and environmentally-friendly school.

We have four targets to meet across the year.

Here is a summary:

- To create a wild flower garden
- To reduce waste
- To increase awareness of the issues around sustainability
- Increase awareness of the benefits of cycling or scooting to school

Over the coming weeks, we will be working on a plan for these targets and will let our classes know how they can help our school become more environmentally-friendly.

Thank you!
